EXPERIENCE

Flutter Developer

Ba Technology

Jan 2023 - June 2024

Tamil Nadu, Chennai

Ba Technology is a startup company with a strong team dedicated to creating high-quality applications.

- Built and maintained multiple cross-platform applications for Android and iOS using Flutter, achieving native-quality performance and UI.
- Efficiently implemented new features and resolved bugs, ensuring smooth app functionality and user experience.
- Successfully developed and integrated chat applications with seamless Firebase authentication and Firestore database.
- Implemented payment gateways to facilitate seamless transactions.
- Effectively utilized Git for version control and project management, fostering efficient collaboration with other developers.
- Delivered complete projects from start to final launch, demonstrating proficiency in the entire development lifecycle.
- Integrated Firebase into mobile apps, enabling authentication and notification functionalities.
- Skilled in managing and consuming REST API data within applications, facilitating seamless data exchange and manipulation.
- Proficient in implementing state management solutions like GetX, Provider, and Riverpod, ensuring efficient and scalable application architecture.
- Experienced in efficiently integrating and using third-party APIs and dependencies.
- Maintained well-structured code within the Clean Architecture, ensuring code clarity, maintainability, and scalability.
